Fire Marshal

We are pleased to present the Comprehensive Annual Financial Report (CAFR) of the Addison Fire Protection District #1 (District), Addison, Illinois for the fiscal year ended May 31, 2020.

The District is required to issue annually a report of its financial position and activity presented in conformance with generally accepted accounting principles (GAAP). This report is presented using the financial reporting model outlined by the Governmental Accounting Standards Board (GASB). Management assumes full responsibility for the completeness and reliability of all the information presented in this report and asserts that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

To provide a reasonable basis for making its representations, management has established a comprehensive internal control framework. This framework is designed to provide reasonable assurance that assets are safeguarded against loss from unauthorized use or disposition and that accounting transactions are executed in accordance with management's authorization and properly recorded so that the financial statements can be prepared in conformity with generally accepted accounting principles (GAAP). The objective of the internal control framework is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

State statutes require an annual audit of the financial records and transactions of the District by independent certified public accountants selected by the Board of Trustees. The Board of Trustees selected the accounting firm of Sikich, LLP. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's basic financial statements for the fiscal year ended May 31, 2020, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report. Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements MD&A is also intended to disclose any known significant events or decisions that affect the financial condition of the District. MD&A complements this letter of transmittal and should be read in conjunction with it.

DISTRICT PROFILE

The Addison Fire Protection District (District) was organized in 1946 under the general laws of the State of Illinois providing for the organization and operation of fire protection districts and is now operating under the provisions of the Fire Protection District Act of the State of Illinois, as amended (70 ILCS 705/0.01 et seq.). The District is comprised of a residential and industrial mix of occupancies innortheast DuPage County. Located approximately twenty- three miles west of Chicago's Central Business District, the District covers a population of approximately 40,000 people and an area of approximately 12 square miles including the Village of Addison and the surrounding unincorporated areas.

The District provides a full range of services to its residents. These services include fire suppression services, emergency medical services, underwater rescue and recovery, hazardous material response, fire prevention and public educational, special rescue and community events. In addition to general operations, the District exercises oversight of the Firefighters' Pension Fund and the Foreign Fire Tax Insurance Board; therefore these activities are included in the reporting entity.

The District operates under an elected Board of Trustees form of government. The Board of Trustees is comprised of three members who are responsible, among other things, for determining policies, passing resolutions and ordinances, adopting the annual budget, and appointing committees. The Fire Chief/Administrator is appointed by the Board of Trustees and is responsible for the daily operations and management of the District.

The annual budget serves as the foundation for the District's financial planning and control. State law requires that a fire protection district adopt a final budget by no later than the end of the first quarter of the new fiscal year. The District budget is prepared by fund and function, but the format of the budget provides for a departmental budget with line item supplemental backup. The legal level of budgetary control is the fund level.

A budget to actual comparison is provided in this report for the General Fund. This comparison is presented as required supplementary information. For governmental funds other than the General Fund, this comparison is presented in the combining and individual fund section of this report.

ECONOMIC CONDITION AND OUTLOOK

Growth and development in the few remaining areas of potential growth have now begun to be developed and rapidly accelerated within the last year. The first retirement occupancy every to be built within the boundaries of our response area is open and operational, with two more on the drawing board. Our number one priority has always been and remains life safety for our citizens and our personnel. We have a high volume of Emergency Medical Service (EMS) activity and this is projected to increase more rapidly as the retirement occupancies discussed above are completed. In anticipation of this increase in ambulance demand, the District adjusted manning to ensure a minimum of three ambulances are in operation at all times. This was done by shifting current staffing levels. As ambulance demand increases, the fire district should realize an increase in the revenue generated by ambulance billing.

The amount of collected property taxes continues to be close to 100% of the levy. Revenues from new properties which are normally very limited are expected to be at their highest levels in decades, with many new building projects underway. Fees for services charged primarily to non-tax paying nonresidents and grants have provided a revenue stream as well. We also have been able to generate some revenue by leasing space on our communication towers located at two of our fire stations and recently added additional tenants. Income earned on interest which had risen over the past years has slowed and leveled off. Interest income is not utilized for operational expenses, so any decreases to this revenue stream will not impact operations. We believe our economic outlook will continue to be acceptable and will allow us to at least maintain current core service levels.

LONG-TERM FINANCIAL PLANNING

The District maintains a continually updated capital improvement/replacement schedule that keeps buildings and equipment up to date and modern. The recent updates of our vehicle fleet and the renovations of all three of our fire stations over the past few years will leave our organization in a good position to only have to address maintenance issues going forward for some time, which will allow us to build up our reserves for future replacement and renovation needs. The Capital Improvement Fund is funded and/or has funding scheduled sufficiently to provide for future needs.

The District has financial policies in place to promote fiscal stability. District policy dictates the spending controls and process for purchases approved by the Board of Trustees and all employees. The District procurement policy shall always be consistent with all State statutes

pertaining to competitive bidding. The investment policy emphasizes safety of principle and maintenance of purchasing power as the foremost objectives, and this concept is reinforced with the requirement that District assets be collateralized for amounts over the FDIC limit. Our investment policy was updated in 2017 to include the District's ability to invest in allowable highly rated municipal bonds for the first time.

MAJOR INITIATIVES FOR FISCAL VEAR 2020

Staffing and associated costs will continue to be our largest operating expenditure. The District has maintained strict controls over overtime. Again this year we have had several retirements with additional retirements expected over the next 2 years. This will required the hiring of between 2 and 4 personnel in FY 20-21. New employee hiring costs and the costs associated with finalizing employment with retirees is well planned and budgeted for.

Upgraded our software and polices in the areas of personnel management, training record management and building preplan management. These upgrades will result in cost savings and other efficiencies going forward.

We will continue to maintain our three fire stations by way of comprehensive inspections and general maintenance. Preventative maintenance plays a major role in maintaining our structures and minimizing costly repairs or replacement. Additionally, steps continue to be completed to reduce costs and lower our carbon imprint by replacing all lighting in and around all three stations with energy efficient lighting.

The District once again negotiated very favorable renewal rates of both liability and worker compensation insurance with two vendors that has resulted in considerable savings in both of these areas. Our current worker compensation insurance rates for firefighters continues to be among one of the lowest in the State of Illinois which is not only the result of strong negotiating, but also a reflection of the robust mechanisms in place that ensure a safe working environment for our employees.

The fire district submitted to obtain a Distinguished Budget Presentation Award from the GFOA for the first time in it's history.

As we enter the FY 2021, we will continue to be vigilant over the budget, the levy, and all expenses by balancing commitments of employment, pensions, and insurances, while maintaining a solid financial position to cover all operational expenses. While the District remains largely dependent on property tax revenue, we have aggressively reviewed and added user fees in an effort to diversify our revenue sources and spread funding responsibilities to users of service. We are always concerned that tough economic times can always be right around the corner and we are very aware of our taxpayer's burden of overall taxes. Our Board of Trustees is addressing that with a continued conservative approach to spending, keeping in mind that we will continue to promote safety by way of training and maintaining an active committee that makes recommendations and reviews incidents as they occur. The current Board of Trustees is continuing the conservative yet progressive controls of our finances necessary to carry us for the next 5-10 years.

$Key a chievements for the year \, ended \, May \, 31,2020 \, include \, but are \, not \, limited \, to: \,$

*Strive for financial stability, while assessing all necessary programs, review of investments and investment policies and completed capital improvements and purchases without the need to take on any debt which included remodeling of our fire station number one. Continued to remain debt free.

*Funded our firefighter pension at 100% of the highest actuarially required amount plus contributed an additional payment of over \$600,000. Provided the pension fund (IPRF) of our non-firefighting personnel over \$50,000 of additional funding above required actuarially required funding. These extra payments were made possible following strict budgetary restraint and savings realized in all insurance coverages.

*Continue to aggressively renegotiate worker compensation insurance renewals which have resulted in one of the lowest firefighter insurance rates in the State of Illinois.

* Market our new training center which is a model training center for our area in order to generate revenue going forward by offering and hosting various classes. Added another long term lease tenant to one of our communication towers. Working with the State and Federal Governments to increase the amount that is paid for the transport of Medicare and Medicaid patients.

*Continued the work necessary to achieve international accreditation through the Center for Public Safety Excellence. The amount of work being focused toward this endeavor continued to increase during the FY and will remain at a high level until completion which is projected to occur sometime in FY 20-21. This goal has been pushed back due to COVID related delays within the CPSE.

*Addison Fire District remains very aggressive toward obtaining public and private grants to help us accomplish our missions and to save taxes for our residents. Since 2006, we have obtained over 2 million dollars of grant money from FEMA's Department of Homeland Security and other agencies. We have several grants currently pending.

*Continue compliance with nationally recognized standards.

*Revamped all of the record management systems within the District.

Major initiatives for the future include:

*Achievement of international accreditation through the Commission on Fire Accreditation International (CFAI) and an Insurance Service Office (ISO) classification of one.

*Fiscal strength will continue to be a concern during these fluctuating economic times. Sources of new revenue stream will continually be researched.

*Fully fund the firefighters' pension fund via alterative revenue bonds in order to contain the ever rising unfunded pension liability costs.

*Strive to continually improve response times and call handling times.

*Strengthen succession planning training in order to plan for anticipated additional retirements

*Continually review and assess all programs and services provided to ensure the needs of our customers are met in the most cost effective manner possible.

AWARDS AND ACKNOWLEDGMENTS

The Addison Fire Protection District received a Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA) for FY ended May 31,2015 and every FY since.

The Addison Fire District has for the past 6 years received an unmodified opinion in our audit from the firm of Sikich, LLP.

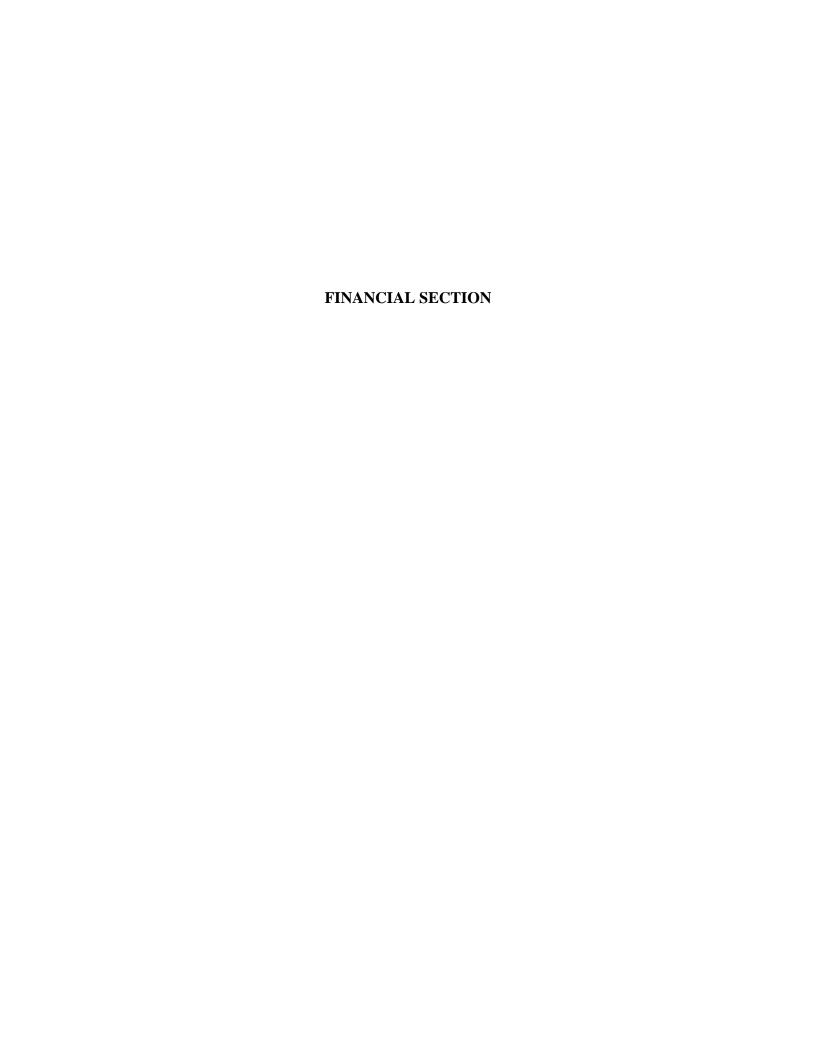

The timely preparation of the CAFR was made possible by the efficient and dedicated services of our administrative staff. We sincerely appreciate and acknowledge the support and direction provided by the accounting firm of Sikich LLP, in preparing the District's CAFR.

We would also like to express our appreciation to the Board of Trustees for their leadership and support in planning and conducting the financial operations of the District in a responsible manner.

Respectfully submitted,

Scott W. Walker

INDEPENDENT AUDITOR'S REPORT

The Honorable President Members of the Board of Trustees Addison Fire Protection District #1 Addison, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Addison Fire Protection District #1, Addison, Illinois (the District) as of and for the year ended May 31, 2020, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Addison Fire Protection District #1, Addison, Illinois as of May 31, 2020 and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

The District adopted GASB Statement No. 84, *Fiduciary Activities*, for the fiscal year ended May 31, 2020. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The combining and individual fund financial statements and schedules, supplemental information, introductory section and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules and supplemental information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Sikich LLP

Naperville, Illinois October 22, 2020

GENERAL PURPOSE EXTERNAL FINANCIAL STATEMENTS

As the Addison Fire Protection District (the District) management, we offer District financial statement readers this financial activities narrative overview and analysis for the fiscal year ended May 31, 2020. Management's discussion and analysis (MD&A) is designed to focus on the current year's activities, resulting changes, and currently known facts. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

The District's MD&A is also designated to assist the reader in focusing on significant financial issues, provide an overview of financial activities, identify current changes, address subsequent years challenges, identify material deviations from the financial plan (approved budgets), and identify issues with individual funds.

Financial Highlights

- The District's liabilities and deferred inflows of resources exceeded its assets and deferred outflows of resources at the close of the most recent fiscal year by \$24,010,847. The major reason the District's net position is the implementation of GASB 68 and GASB 75 which requires the net pension liability of the District Fire, IMRF Pension, and Other Postemployment Benefit plans to be reported as liabilities of the District on the government wide financial statements.
- The District's total net position decreased by \$3,560,942 primarily due to an increase in longterm liabilities due in more than one year. See page 4 of this CAFR to details of the changes in Net Position.
- As of the current fiscal year close, the District's governmental funds reported combined ending fund balances of \$9,809,665 an increase of \$430,286 in comparison with the prior year. Of this amount, \$9,418,711 (96.0%) is available for spending at the government's discretion (unrestricted fund balance). The District's overall fund balance is reported showing nonspendable, assigned and unassigned funds as well as restricted funds in conformance with GASB requirements.
- At the current fiscal year end, fund balance for the General Fund was \$4,940,790 or 36.0% of total General Fund expenditures. In order for the District to be financially prepared to meet its fiduciary responsibilities in the future while continuing to provide the highest level of service possible, the General fund transferred \$486,634 to the Capital Improvement Fund for future fleet and facility replacement.
- The District has no long term debt except for non-current compensated absences and other post-employment benefit obligations.
- At the current fiscal year end, total fund balance in the Capital Improvement Fund was \$4,477,921 all of which is assigned for future capital acquisitions.

Overview of the Financial Statements

This discussion is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of District finances, in a manner similar to a private-sector business and are reported using the accrual basis of accounting and economic resources measurement focus.

The statement of net position presents information on all District assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Over time, the increases or decreases in net position may serve as a useful indicator of whether or not the District's financial position is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and unpaid obligations).

The government-wide financial statement distinguishes District functions that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities reflect the District's basic services including fire, ambulance and other administrative functions.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other units of government, uses fund accounting to ensure compliance with finance-related legal requirements. All of these funds can be divided into two types: governmental funds and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements and are reported using the modified accrual basis of accounting and current financial resources measurement focus. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. All of the District's services are reported in governmental funds, which focus on how money flows into and out of these funds and the balances left at year-end that are available for use. Both the governmental fund balance sheet and the governmental statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate comparison between government funds and government activities.

The District maintains seven individual government funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund (which includes activities of the Ambulance Fund, Rescue Fund, and Operating Reserve Fund), and Capital Improvement Fund which are considered to be major funds. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and individual schedules elsewhere in the report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside government. Fiduciary Funds are not reflected in the government-wide financial statement because these fund's resources are not available to support the District's own programs. The Firemen's Pension fund is a Fiduciary Component Unit of the District.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to these basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its employees.

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the required supplementary information on pensions.

Statement of Net Position (000's omitted)		
	<u>2020</u>	<u>2019</u>
Assets and Deferred Outflows		
Other Assets:

Net position, beginning of year	(20,450)	(13,670)						
Change in accounting principle	(24.011)	(5,276)						
Net position, end of year	(24,011)	(20,450)						

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. In the District's case, liabilities and deferred outflows of resources exceeded assets and deferred inflows of resources by \$20,449,905 at the most recent fiscal year close. In FY 16 GASB 68 required the inclusion of the Pension Fund liabilities on the District's statement of net position.

A portion of the District's net position \$8,884,716 reflects its investments in capital assets (e.g., land, buildings, machinery and equipment, and vehicles), The District uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

In the case of the District, total net position is recorded as \$(24,010,847). The District's total assets and deferred outflows of resources equal \$39,149,312. The District's total liabilities and deferred inflows of resources equals \$63,160,159 with \$37,378,771 representing the net pension liability for the fire pension and IMRF pension plans, and \$10,963,161 representing the liability for the other postemployment benefit plan.

Governmental activities. The District's net position decreased during the current fiscal year by decreased by \$3,560,847 primarily due to an increase in long-term liabilities due in more than one year. Overall, the District realized a 6.1% increase in revenues coupled with a 18.4% increase in operating expenses.

- Property tax revenues increased from \$12.187 million in FY 19 to \$12.487 million in FY 20 on a 1.9% CPI increase.
- Charges for services and grants increased from \$1.525 million in FY 19 to \$1.860 million in FY
 20 due to more grant revenue being received and increased ambulance fee revenue.
- Expenses increased from \$16.012 million in FY 19 to \$18.960 million in FY 20.

Financial Analysis of the District's funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental funds. The District governmental funds focus is to provide information on near-term inflows, outflows, and spendable resources balances. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of the current fiscal year end, the District's governmental funds reported combined ending fund balances of \$9,809,665 an increase of \$430,286 in comparison with the previous year. 96% (\$9,418,711) of this total amount constitutes unrestricted fund balance (unassigned or assigned), which is available for spending at the District's discretion. The remainder of the fund balance is restricted or non-spendable to indicate that is not available for new spending because it has already been committed for non-spendable pre-paid items of \$57,316 and other restrictions of \$333,638 as identified on page 6 of the audit report.

The General Fund is the District's chief operating fund. At the end of the current fiscal year, the General Fund's unassigned fund balance was \$1,445,287. In addition, the District has assigned fund balance in the General Fund for cash reserves of \$3,495,503. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balances represent 10.5% of total General Fund expenditures. Total fund balances of the General Fund represent 36.0% of total General Fund expenditures.

Fund Balances

At the end of this fiscal, FY20, the General Fund which includes both the General Fund and Ambulance Fund, fund balance increased from \$4.696 million in FY 19 to \$4.941 million in FY 20. This increase in Fund Balance was due to increases in Property Taxes, Charges for Services, Replacement Taxes, and Investment Income. The District's Capital Fund increased from \$4.376 million in FY 19 to \$4.477 million in FY 20. The reason for this increase was a planned increase of reserves based on the District's fleet and facility replacement plan. The District non-major funds had small variances from FY 19 to FY 20 with no major unexpected occurrences during the fiscal year.

General Fund Budgetary Highlights

Over the course of the year, the District did not revise the annual operating budget. Actual revenues for the General Fund (includes the Corporate, Ambulance and Rescue Funds) came in over budget expectations by 3.6% (including the Pension Fund). The actual expenditures were 3.4% under budget (not including the pension fund). Major expenditure categories of positive budget variance came from insurance, vehicle maintenance and dispatch.

Capital Assets and Debt Administration

Capital assets. At the end of fiscal year 2020, the District had total capital assets (net of accumulated depreciation) of \$8.885 million, invested in a broad range of capital assets including ambulance and fire equipment, buildings, land and equipment. The District maintains a detailed list of capital assets. Total depreciation expense for the year was \$880,085. Additional information on the District's capital assets can be found in Note 5 to the financial statements.

Long-term debt. At the end of the current fiscal year, the District had no outstanding current or long-term debt.

Economic Factors in Next Year's Budgets and Rates

- The state imposed tax cap continues to restrict the revenues needed to fully fund the district operations and discussions continue on a state-wide property tax freeze. Next year the District tax cap will be consumer price index (CPI) of 2.3% which is an increase from the prior year. Pension fund taxes increased this fiscal year, none of which is available for operations but is intended to meet District obligations for unfunded liabilities. Due to the District's commitment to the pension fund, it has surpassed its actuarial determined contribution for the last three years. The vehicle and equipment replacement schedule was funded as needed for future purchases.
- The District continues to charge both residents and non-residents for ambulance service calls.
 The fee schedules are reviewed periodically to reflect current applicable charges reflective of acceptable rates provided by Medicare.
- Beginning around March 2020, the Covid-19 virus has been declared a global pandemic as it
 continued to spread rapidly. The economic impact of the State of Illinois' Executive Order
 imposing "stay at home" restrictions will be widespread and last for several years. The District is
 carefully monitoring the situation and evaluating its options for the current year and following
 year's budgetary position as the situation continues to unfold.

Requests for Information

This financial report is designed to provide a general overview of the Addison Fire Protection District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or request for additional financial information should be addressed to, the Addison Fire Protection District #1, 10 S. Addison Road, Addison, Illinois 60101

NOTES TO FINANCIAL STATEMENTS

May 31, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Addison Fire Protection District #1, Addison, Illinois (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applicable to governments (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and reporting principles. The following is a summary of the significant accounting policies of the District.

a. Reporting Entity

The District was created subject to the Fire Protection District Act (70 ILCS 705) to operate a fire protection district in the western suburbs of Illinois. The District was created "to provide the citizenry of the Addison Fire Protection District with professional fire prevention, fire suppression and emergency medical services."

As required by the accounting principles generally accepted in the United States of America (GAAP), these financial statements present the District and any component units, entities for which the District is considered to be financially accountable. Management has determined that there is one fiduciary component unit that is required to be included in the financial statements of the District as a pension trust fund.

b. Fund Accounting

The District uses funds to report on its financial position and the changes in its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts. Funds are classified into the following categories: governmental and fiduciary.

Governmental funds are used to account for all or most of the District's general activities, including the collection and disbursement of restricted or committed monies (special revenue funds), the funds committed, restricted or assigned for the acquisition or construction of general capital assets (capital projects funds) and the funds committed, restricted or assigned for the servicing of general long-term debt (debt service funds). The General (Corporate) Fund is used to account for all activities of the government not accounted for in some other fund.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Fund Accounting (Continued)

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments. When these assets are held under the terms of a formal trust agreement, a pension trust fund is used.

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of material interfund activity has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, if any, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and shared revenues that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for the governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It is comprised of four subfunds: the General Fund, the Ambulance Fund, the Rescue Fund and the Operating Reserve Fund. The General Fund accounts for the financial resources of the general government, except those accounted for in another fund. The Ambulance Fund accounts for a specific tax levy and charges for services to be used for paying the costs of paramedic ambulance services. Financing is provided by an annual property tax levy and charges to out-of-district and similar users. The Rescue Fund accounts for a specific tax levy to be used for paying wages and other costs for additional emergency personnel. The Operating Reserve Fund accounts for the accumulated reserve balances of the District.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements (Continued)

The Capital Improvement Fund accounts for funds assigned for major capital construction or acquisitions.

Additionally, the District reports the Firefighters' Pension Fund as a fiduciary component unit to account for the activities of the Firefighters' Pension Fund.

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements and the fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period (generally 60 days). The District recognizes property taxes when they become both measurable and available (collected) in the year intended to finance. Expenditures are recorded when the related liability is incurred. Principal and interest on general long-term debt are recorded as expenditures become due.

Those revenues susceptible to accrual are charges for services, replacement taxes and interest on investments.

The District reports unearned/deferred/unavailable revenue on its financial statements. Unearned/deferred/unavailable revenues arise when potential revenue does not meet both the measurable and available criteria for recognition in the current period for governmental government-wide funds or earned at the Unearned/deferred/unavailable revenues also arise when resources are received by the District before it has legal claim to them as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when revenue recognition criteria are met, or when the District has a legal claim to the resources by meeting all eligibility requirements, the liability or deferred inflow of resources for unearned/deferred/unavailable revenue is removed from the financial statements and revenue is recognized.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e. Investments

Investments of the District's operating funds, other than non-negotiable certificates of deposit, are stated at fair value based on quoted market prices. All other investments which do not consider market rates are stated at cost. Investment income has been allocated to each fund based on investments held by the fund. All investments of the fiduciary fund are reported at fair value.

f. Interfund Receivables/Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of the interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

g. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items, using the consumption method. Such amounts are offset by nonspendable fund balance for prepaid items in the fund financial statements.

h. Capital Assets

Capital assets are recorded as expenditures at the time of purchase. Capital assets, which include land, buildings, vehicles and equipment are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost in excess of \$10,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value or service capacity of the asset or materially extend asset lives are not capitalized.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h. Capital Assets (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and training tower	30
Antennas	20
Equipment	7-30
Vehicles	6-20

i. Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. In the fund financial statements, compensated absences are reported as a fund liability for amounts owed to terminated or retired employees. Accumulated unused vacation and sick days are recorded in the government-wide financial statements as an expense and liability of those funds as the benefits accrue to employees. Employees are paid for 25% of unused or accumulated sick days until they have 20 years of service when their employment is severed with the District. After 20 years of service, employees are paid for 100% of their unused or accumulated sick days. The General Fund has been used in prior years to liquidate the liability for compensated absences.

j. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond and note premiums and discounts are deferred and amortized over the life of the related debt using the effective interest method. Bonds and notes payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the governmental fund financial statements, governmental funds recognize bond and note premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as another financing source and premiums are reported as another financing source and discounts are reported as another financing use. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

k. Fund Balance/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or are legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for a specific purpose, or externally imposed by outside entities. None of the restricted fund balance resulted from enabling legislation adopted by the District. Committed fund balance is constrained by formal actions of the District's Board of Trustees, which is considered the District's highest level of decision-making authority. Formal actions include ordinances approved by the Board of Trustees to both commit fund balance and to rescind a commitment of fund balance. Assigned fund balance represents amounts constrained by the District's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the District's Fire Chief. Any residual fund balance of the General Fund is reported as unassigned. Any deficit fund balances in other governmental funds is also reported as unassigned.

The District does not have a formal fund balance policy. Therefore, in accordance with GASB Statement No. 54, the flow of funds uses the default assumption that prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the District considers committed funds to be expended first followed by assigned and then unassigned funds.

In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. Net investment in capital assets is the book value of capital assets less any outstanding debt that was issued to construct the capital assets.

1. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District reports deferred/unavailable property taxes in this category.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities and deferred inflows and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

2. RECEIVABLE - TAXES

Property taxes for 2019 attach as an enforceable lien on January 1, 2019, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a tax levy ordinance). Tax bills are prepared by the County and issued on or about May 1, 2020, and are payable in two installments, on or about June 1, 2020 and September 1, 2020. The County collects such taxes and remits them periodically. Because the 2019 levy is intended to finance the fiscal year ending May 31, 2021, it has been offset by unavailable/deferred revenue at May 31, 2020. The 2020 tax levy, which attached as an enforceable lien on property as of January 1, 2020, has not been recorded as a receivable as of May 31, 2020, as the tax has not yet been levied by the District and will not be levied until December 2020 and, therefore, the levy is not measurable at May 31, 2020.

3. DEPOSITS AND INVESTMENTS

a. District Investments

The District's investment policy authorizes the District to invest in all investments allowed by Illinois Compiled Statutes (ILCS). These include deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and agencies, U.S. state and local government bonds, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States Government or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services and The Illinois Funds (created by the Illinois State Legislature under the control of the State Comptroller that maintains a \$1 per share value which is equal to the participants fair value).

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety of principal, liquidity and rate of return.

NOTES TO FINANCIAL STATEMENTS (Continued)

3. DEPOSITS AND INVESTMENTS (Continued)

a. District Investments (Continued)

The District maintains a cash and investment pool that is available for use by all funds, except the pension trust fund. In addition, investments are separately held by several of the District's funds. The deposits and investments of the pension trust funds are held separately from those of other funds.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the District's deposits may not be returned to it. The District's investment policy requires pledging of collateral held by the custodial bank in the District's name for all bank balances in excess of federal depository insurance.

Investments

The following table presents the investments and maturities of the District's debt securities as of May 31, 2020:

					Inv	estment Maturi	ties (in Y	ears)	
Investment Type	_]	Fair Value	L	ess Than 1		1-5	6-10	Gre	eater than 10
U.S. agency securities	\$	2,168,471	\$	955,477	\$	1,212,994 \$		- \$	-
U.S. Treasury securities		356,649		201,188		155,461		-	-
Corporate bonds		159,380		-		159,380		-	-
Negotiable CDs		6,908,346		1,397,827		5,510,519		-	-
_									
TOTAL	\$	9,592,846	\$	2,554,492	\$	7,038,354 \$		- \$	-

Interest rate risk is the risk that change in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the District limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for short and long-term cash flow needs while providing a reasonable rate of return based on the current market.

The District has the following recurring fair value measurements as of May 31, 2020: The U.S. treasury and agency obligations, corporate bonds and negotiable certificates of deposit are valued using quoted matrix pricing models (Level 2 inputs).

The District limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in securities issued by the United States Government including U.S. agencies. The District's investment policy is silent on credit risk. The U.S. agency securities are rated AA+. The corporate bonds and negotiable certificates of deposit are not rated.

NOTES TO FINANCIAL STATEMENTS (Continued)

3. DEPOSITS AND INVESTMENTS (Continued)

a. District Investments (Continued)

Investments (Continued)

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the District will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the District's investment policy requires all investments be held by an agent of the District in the District's name.

Concentration of credit risk is the risk that the District has a high percentage of their investments invested in one type of investment. The District's investment policy requires that no more than 40% of assets shall be concentrated in a single instrument or class of instruments other than U.S. Treasury and agency securities.

4. INTERFUND ACTIVITY

a. Transfers

Transfers between other funds for the year ended May 31, 2020 consist of the following:

	Tr	ansfer In	Transfer Ou		
General Fund Capital Improvement Fund	\$	486,634	\$	486,634	
TOTAL	\$	486,634	\$	486,634	

The purposes of the significant transfers are as follows:

• \$486,634 - The General Fund transferred funds to the Capital Improvement Fund for capital improvements. The transfer will not be repaid.

NOTES TO FINANCIAL STATEMENTS (Continued)

5. CAPITAL ASSETS

Capital asset activity for the District for the year ended May 31, 2020 was as follows:

	Balances		r	ъ.		Balances
	 June 1	-	Increases	De	ecreases	May 31
GOVERNMENTAL ACTIVITIES Capital assets not being depreciated

Total capital assets being depreciated, net	 8,890,416		(747,186)		8,514	8,134,716
GOVERNMENTAL ACTIVITIES CAPITAL ASSETS, NET	\$ 9,640,416	\$	(747,186)	\$	8,514	\$ 8,884,716

Depreciation expense of \$880,085 was charged to the public safety function.

6. LONG-TERM DEBT

Changes in Long-Term Debt

The following is a summary of changes in long-term debt for the year ended May 31, 2020:

	Balances June 1	Additions	Reductions	Balances May 31	Current Portion	Long-Term Portion
GOVERNMENTAL ACTIVITIES						
Compensated absences payable	\$ 1,856,297	\$ 18,229	\$ 278,445	\$ 1,596,081	\$ 239,411	\$ 1,356,670
Other postemployment benefit liability	9,586,460	1,376,701	-	10,963,161	489,304	10,473,857
Net pension liability - Firefighters' Pension Fund	34,201,748	3,096,469	-	37,298,217	-	37,298,217
Net pension liability - IMRF	331,223	-	250,669	80,554	-	80,554
TOTAL GOVERNMENTAL ACTIVITIES	\$ 45,975,728	\$ 4,491,399	\$ 529,114	\$ 49,938,013	\$ 728,715	\$ 49,209,298

All of the above liabilities have been typically liquidated in prior years by the General Fund.

NOTES TO FINANCIAL STATEMENTS (Continued)

7. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; employee health insurance; and natural disasters. These risks (except workers' compensation and employee health) are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage in the current fiscal year or the two prior fiscal years.

The District purchases employee health insurance from an independent third party. For workers' compensation insurance, the District participates in the Illinois Public Risk Fund (the Fund). The Fund is a self-funded workers' compensation pool for public entities. The purpose of the Fund is to provide for the defense and payment when due of all compensation and other benefits under the Illinois Workers' Compensation and Occupational Diseases Laws on behalf of fire protection districts, public entities and agencies and other units of state and local government within the State of Illinois. There are approximately 500 members. A Board of Trustees oversees the operation of the Fund and governs it in accordance with State of Illinois Regulations.

Members' cost is proportional, based on contributions developed by payroll audits. Rates and any discounts approved by the Board of Trustees are used to determine standard premiums for each member. Each member's experience modifications are used. Members also participate in policyholder dividends based on the Fund's and individual member's experience. Members can also be assessed if the assets of the Fund are less than the reserves required to be maintained. The District is not aware of any additional amounts due to the Fund at May 31, 2020.

8. EMPLOYEE RETIREMENT SYSTEMS

The District contributes to two defined benefit pension plans: the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system and the Firefighters' Pension Plan (collectively called the pension plans) which is a single-employer pension plan. The benefits, benefit levels, employee contributions and employer contributions for all plans are governed by ILCS and can only be amended by the Illinois General Assembly. The Firefighters' Pension Plan does not issue a separate report. However, IMRF does issue a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523 or at www.imrf.org.

NOTES TO FINANCIAL STATEMENTS (Continued)

8. EMPLOYEE RETIREMENT SYSTEMS (Continued)

The table below is a summary for all pension plans as of and for the year ended May 31, 2020:

	Firefighters'					
		IMRF		Pension		Total
Net pension liability	\$	80,554	\$	37,298,217	\$	37,378,771

Pension expense		42,393		5,776,692		5,819,085

a. Plan Descriptions

Illinois Municipal Retirement Fund

Plan Administration

All employees (other than those covered by the Firefighters' Pension Plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Plan Membership

At December 31, 2019 (plan measurement date), IMRF membership consisted of:

Inactive plan members or their beneficiaries	
currently receiving benefits	4
Inactive plan members entitled to but not yet receiving benefits	1
Active plan members	4
TOTAL	9

NOTES TO FINANCIAL STATEMENTS (Continued)

8. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Benefits Provided

All employees (other than those covered by the Firefighters' Pension Plans) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service.

Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Contributions

Participating members are required to contribute 4.50% of their annual salary to IMRF. The District is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The employer contribution for the year ended May 31, 2020 was 13.38%.

Actuarial Assumptions

The District's net pension liability was measured as of December 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

NOTES TO FINANCIAL STATEMENTS (Continued)

8. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Actuarial Assumptions (Continued)

Actuarial valuation date December 31, 2019

Actuarial cost method Entry-age normal

Assumptions

Inflation 2.50%

Salary increases 3.35% to 14.25%

Interest rate 7.25%

Cost of living adjustments 3.00%

Asset valuation method Fair value

For nondisabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for nondisabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Discount Rate

The discount rate used to measure the total pension liability at December 31, 2019 was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Net pension liability (asset)	\$	284,072	\$	80,554	\$	(91,318)		

Firefighters' Pension Plan

Plan Administration

Fire sworn personnel are covered by the Firefighters' Pension Plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/4-1) and may be amended only by the Illinois Legislature. The District accounts for the plan as a pension trust fund.

The plan is governed by a five-member Board of Trustees. Two members of the Board of Trustees are appointed by the Board President, one member is elected by pension beneficiaries and two members are elected by active firefighters.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

At May 31, 2020, membership consisted of:

Inactive plan members currently receiving benefits	59
Inactive plan members entitled to but not yet receiving benefits	2
Active plan members	53
•	
TOTAL	114

NOTES TO FINANCIAL STATEMENTS (Continued)

8. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Benefits Provided

The Firefighters' Pension Plan provides retirement benefits through two tiers of benefits as well as death and disability benefits. Tier 1 employees (those hired prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held at the date of retirement. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least ten years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a covered employee who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 employees (those hired on or after January 1, 2011) attaining the age of 55 or older with ten or more years of creditable service are entitled to receive an annual retirement benefit equal to the greater of the average monthly salary obtaining by dividing the total salary during the 48 consecutive months of service within the last of 60 months in which the total salary was the highest by the number of months in that period; or the average monthly salary obtained by dividing the total salary of the firefighter during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Firefighters' salary for pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3% compounded. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least ten years may retire at or after age 50 and receive a reduced benefit (i.e., ½% for each month under 55). The monthly benefit of a Tier 2 firefighter shall be increased annually at age 60 on the January 1st after the firefighter retires or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3% or ½ of the change in the Consumer Price Index for the proceeding calendar year.

NOTES TO FINANCIAL STATEMENTS (Continued)

8. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Contributions

Covered employees are required to contribute 9.455% of their base salary to the Firefighters' Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The District is required to finance the plan and the administrative costs as actuarially determined by an enrolled actuary. Effective January 1, 2011, the District has until the year 2040 to fund 90% of the past services costs for the Firefighters' Pension Plan. However, the District is funding based on 100% amortization. For the year ended May 31, 2020, the District's contribution was 61.61% of covered payroll.

Investment Policy

The Firefighters' Pension Fund's (the Fund) investment policy authorizes the Fund to invest in all investments allowed by ILCS. These include deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States Government or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services and The Illinois Funds. The Fund may also invest in certain non-U.S. obligations, Illinois municipal corporations tax anticipation warrants, veterans' loans, obligation of the State of Illinois and its political subdivision, domestic equity securities and registered mutual funds and Illinois insurance company general and separate accounts.

It is the policy of the Fund to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Fund and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety of principal, liquidity and rate of return.

NOTES TO FINANCIAL STATEMENTS (Continued)

8. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Investment Policy (Continued)

The Fund's investment policy in accordance with ILCS establishes the following target allocation across asset classes:

		Long-Term
	Target	Expected Real
Asset Class	(of Category)	Rate of Return
Fixed Income		
U.S. Treasuries	30.00%	1.40%
U.S. Agencies	50.00%	1.40%
Taxable Municipal Securities	10.00%	1.40%
Corporate Bonds	10.00%	1.40%
Equity		
U.S. Large Cap Stocks	70.00%	6.40%
U.S. Small Cap Stocks	20.00%	8.20%
Foreign Securities	10.00%	6.90%

The long-term expected real rates of return are net of a 2.40% factor for inflation and investment expense. ILCS limits the Fund's investments in equities, mutual funds and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund.

The long-term expected rate of return on the Fund's investments was determined using the Asset Management and Trust Division of the investment management consultant's proprietary research and analytical tools in which best estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation of 2.40%) were developed for each major asset class. Best estimates or arithmetic real rates of return excluding inflation for each major asset class included in the Fund's target asset allocation as of May 31, 2020 are listed in the table above.

Concentrations

There are no significant investments (other than United States Government guaranteed obligations) in any one organization that represent 5% or more of the Fund's investments.

NOTES TO FINANCIAL STATEMENTS (Continued)

8. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Rate of Return

For the year ended May 31, 2020, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 9.38%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Fund's deposits may not be returned to it. The Fund's investment policy requires pledging of collateral held by the custodial bank in the Fund's name for all bank balances in excess of federal depository insurance.

Investments

The following table presents the investments and maturities of the Fund's debt securities as of May 31, 2020:

		Investment Maturities (in Years)								
Investment Type	Fair Value	Less Than 1	Less Than 1 1-5		Greater Than 10					
U.S. Treasury securities	\$ 2,362,274	\$ 152,180	\$ 1,327,352	\$ 882,742	\$ -					
U.S. agency securities	15,266,951	-	3,368,429	11,227,700	670,822					
Municipal bonds	2,177,571	115,368	1,342,345	547,518	172,340					
Corporate bonds	3,141,084	72,365	3,068,719	-	-					
Negotiable CDs	100,310	100,310	-	-	=					
TOTAL	\$ 23,048,190	\$ 440,223	\$ 9,106,845	\$ 12,657,960	\$ 843,162					

Interest Rate Risk

The Fund has the following recurring fair value measurements as of May 31, 2020: The mutual funds and exchange traded funds are valued using quoted prices (Level 1 inputs). The U.S. Treasury and agency obligations, municipal bonds, corporate bonds and negotiable certificates of deposit are valued using quoted matrix pricing models (Level 2 inputs).

NOTES TO FINANCIAL STATEMENTS (Continued)

8. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Interest Rate Risk (Continued)

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for short and long-term cash flow needs while providing a reasonable rate of return based on the current market.

Credit Risk

The Fund limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in United States Government and securities issued by certain agencies of the U.S. Government that are explicitly or implicitly guaranteed by the U.S. Government along with municipal bonds and investment grade corporate bonds. The agency securities are rated AA+. The municipal bonds are rated AA to AAA. The corporate bonds are rated BBB+ to AAA. The negotiable CDs are not rated. The Fund investment policy does not address credit risk.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Fund will not be able to recover the value of its investments that are in possession of an outside party. The Fund investment policy limits its exposure to custodial risk by utilizing an independent, third party institution to act as custodian for its securities.

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Actuarial Assumptions

The total pension liability above was determined by an actuarial valuation performed as of May 31, 2020 using the following actuarial methods and assumptions.

Actuarial valuation date May 31, 2020

Actuarial cost method Entry-age normal

Assumptions

Inflation 2.25%

Salary increases 3.25% to 14.35%

Interest rate 7.00%

Cost of living adjustments 3.00% (Tier 1)

2.00% (Tier 2)

Asset valuation method Fair Value

Mortality rates were based on a 2020 experience study performed by the actuary.

Discount Rate

The discount rate used to measure the total pension liability was 7%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

NOTES TO FINANCIAL STATEMENTS (Continued)

8. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Discount Rate Sensitivity

The following is a sensitive analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Firefighters' Pension Plan calculated using the discount rate of 7% as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6%) or 1 percentage point higher (8%) than the current rate:

		Current							
	19	% Decrease	Di	scount Rate	1	% Increase			
		(6%)		(7%)		(8%)			
Net pension liability	\$	49,854,425	\$	37,298,217	\$	27,001,579			

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended May 31, 2020, the District recognized pension expense of \$5,776,692.

At May 31, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to the Firefighters' Pension Plan from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	
Difference between expected and actual experience Changes in assumption Net difference between projected and actual earnings on pension plan investments	\$ 3,772,190 3,198,424 62,896	\$ - 61,515	
TOTAL	\$ 7,033,510	\$ 61,515	

Changes in the net pension liability related to the difference in actual and expected experience, or changes in assumptions regarding future events, are recognized in pension expense over the expected remaining service life of all employees (active and retired) in the plan. Differences in projected and actual earnings over the measurement period are recognized over a five-year period.

2025	679,167
Thereafter	387,120
TOTAL	\$ 6,971,995

9. OTHER POSTEMPLOYMENT BENEFITS

a. Plan Description

In addition to providing the pension benefits described, the District provides postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the District and can be amended by the District through its personnel manual and union contract, except for the implicit subsidy which is governed by the State Legislature and ILCS. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report. The activity of the plan is reported in the District's governmental activities.

NOTES TO FINANCIAL STATEMENTS (Continued)

9. OTHER POSTEMPLOYMENT BENEFITS (Continued)

b. Benefits Provided

The District provides postemployment health care to its retirees. To be eligible for benefits, an employee must qualify for retirement under one of the District's retirement plans with 20 years of creditable service. The District provides an explicit premium subsidy to certain retirees and healthcare access to other retired members provided the member pays 50% of the blended premium. All healthcare benefits are provided through the District's insured health plan. The benefits levels are similar to those afforded to active employees. Upon a participant reaching the age of 65, Medicare becomes the primary insurer and the District's plan becomes secondary. For certain disabled employees who qualify for health insurance benefits under the Public Safety Employee Benefits Act (PSEBA), the District is required to pay 100% of the cost of basic health insurance for the employee and their dependents until the employee is Medicare eligible.

c. Membership

At June 1, 2018 (the latest actuarial valuation date), membership consisted of:

Retirees and beneficiaries currently receiving benefits	24
Terminated employees entitled to benefits but not	
yet receiving them	-
Active employees	51
TOTAL	75
Participating employers	1

d. Total OPEB Liability

The District's total OPEB liability of \$10,963,161 was measured as of May 31, 2020 and was determined by an actuarial valuation as of June 1, 2018.

e. Actuarial Assumptions and Other Inputs

The total OPEB liability at May 31, 2020, as determined by an actuarial valuation as of June 1, 2018, was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified. The total OPEB liability was rolled forward by the actuary using updating procedures to May 31, 2020, including updating the discount rate at May 31, 2020, as noted below.

NOTES TO FINANCIAL STATEMENTS (Continued)

9. OTHER POSTEMPLOYMENT BENEFITS (Continued)

e. Actuarial Assumptions and Other Inputs (Continued)

Actuarial cost method	Entry-age
Actuarial value of assets	Not applicable
Salary Increases	3.25%
Discount rate	2.16%
Healthcare cost trend rates	6.42% to 6.96% Initial 5.00% Ultimate

The municipal bond rate assumption is based on The Bond Buyer 20-Bond GO Index. The rate shown earlier in the assumption section is the May 28, 2020. The 20-Bond GO Index is based on an average of certain general obligation municipal bonds maturing in 20 years and having an average rating equivalent of Moody's Aa2 and Standard & Poor's AA.

f. Changes in the Total OPEB Liability

	Total OPEB Liability
BALANCES AT JUNE 1, 2019	\$ 9,586,460
Changes for the period	
Service cost	357,325
Interest	327,839
Changes in assumptions	1,180,841
Benefit payments	(489,304)
Net changes	1,376,701
BALANCES AT MAY 31, 2020	\$ 10,963,161

Changes in assumptions related to the discount rate were made since the previous measurement period.

NOTES TO FINANCIAL STATEMENTS (Continued)

Total OPEB liability	\$ 9,	611,790	\$	10,963,161	\$	12,562,139

h. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended May 31, 2020, the District recognized OPEB expense of \$2,058,979. Under GASB Statement No. 75, plans that qualify for the Alternative Measurement Method, changes to the OPEB liability are not permitted to be included in deferred outflows of resources or deferred inflows of resources related to OPEB. These changes will be immediately recognized through OPEB expense.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

May 31, 2020

1. BUDGETS

The amounts presented in the budget column in the report are the operating budget, which agrees to the appropriation, for the year ended May 31, 2020.

2. BUDGETARY PROCEDURES

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. The Fire Chief submits to the District Board of Trustees a proposed operating budget for the fiscal year. The operating budget includes proposed expenditures and the means of financing them for the General Fund, Special Revenue Fund, Capital Improvement Fund and the Pension Trust Fund.
- b. Public hearings are conducted by the District to obtain taxpayer comments.
- c. The appropriation is subsequently legally enacted through the passages of the ordinance.
- d. The Fire Chief is authorized to transfer appropriated amounts between departments within funds with proper Board of Trustees approval. The legal level of control is considered to be the fund level.
- e. Formal appropriation integration is employed as a management control device during the year. The appropriations are adopted on a basis consistent with GAAP.
- f. Appropriated amounts are as originally adopted.

3. EXCESS OF ACTUAL EXPENDITURES OVER BUDGET IN INDIVIDUAL FUNDS

There were no funds that had an excess of actual expenditures over budget for the fiscal year.

In 2020, assumptions were changed related to the projected individual pay increases, projected total payroll increases, inflation rate (CPI-U), mortality rates, mortality improvement rates, retirement rates, termination rates and disability rates. There were also changes of benefit terms related to tier two benefits.

In 2017, assumptions were changed related to mortality rates, disability rates, turnover rates and retirement rates.

In 2016, assumptions were changed related to mortality rate.

SCHEDULE OF INVESTMENT RETURNS FIREFIGHTERS' PENSION FUND

Last Six Fiscal Years

FISCAL YEAR ENDED MAY 31,	2015	2016	2017	2018	2019	2020
Annual money-weighted rate of return, net of investment expense	6.54%	0.19%	9.55%	7.59%	2.16%	9.38%

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

SCHEDULE OF CHANGES IN THE EMPLOYER'S TOTAL OPEB LIABILITY AND RELATED RATIOS OTHER POSTEMPLOYMENT BENEFIT PLAN

Last Two Fiscal Years

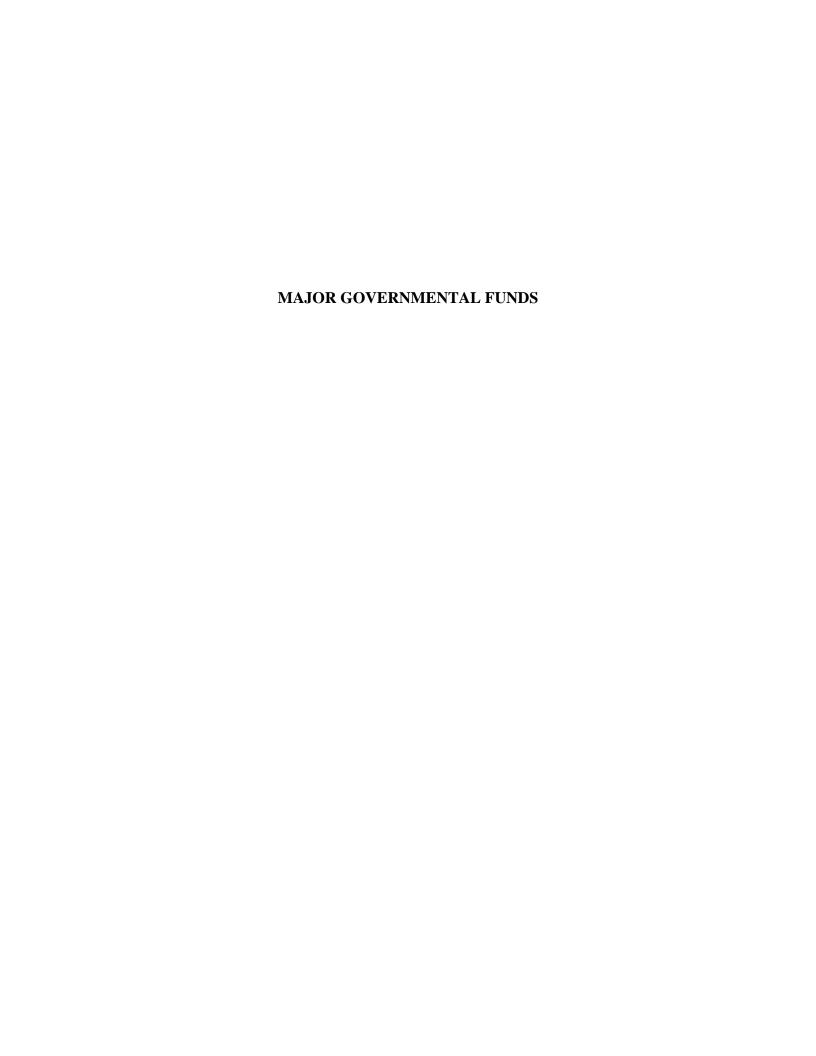

MEASUREMENT DATE MAY 31,	2019	2020		
TOTAL OPEB LIABILITY				
Service cost	\$ 331,531 \$	357,325		
Interest	337,433	327,839		
Differences between expected and actual experience	-	-		
Changes of assumptions	218,670	1,180,841		
Benefit payments	 (456,582)	(489,304)		
Net change in total OPEB liability	431,052	1,376,701		
Total OPEB liability - beginning	 9,155,408	9,586,460		
TOTAL OPEB LIABILITY - ENDING	\$ 9,586,460 \$	10,963,161		
Covered payroll	\$ 5,551,598 \$	5,732,025		
Employer's total OPEB liability as a percentage of covered payroll	172.68%	191.26%		

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

2020 and 2019: Changes related to the discount rate were made since the previous measurement period.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

NONMAJOR GOVERNMENTAL FUNDS

Tort Liability Fund - used to account for the expenditures restricted for liability, property, accident and sickness insurance expenditures. Financing provided by a tax levy.

Audit Fund - used to account for the expenditures restricted to the annual audit of the District's records and accounts. Financing is provided by a property tax levy.

Social Security Fund - used to account for the expenditures restricted to the employer's portion of the Social Security and Medicare benefits. Financing is provided by a property tax levy.

Illinois Municipal Retirement Fund - used to account for the expenditures restricted to the employers matching portion of the IMRF benefits. Financing is provided by a property tax levy.

Foreign Fire Insurance Fund - used to account for revenues from the assessment of the foreign fire tax remitted directly to this fund, which maintains a separate bank account. Its own Board of Trustees controls the expenditures from this fund. Those expenditures, however, are to be used for the benefit of the District.

STATISTICAL SECTION

This part of the Addison Fire Protection District #1's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the District's overall financial health.

<u>Contents</u>	Page(s)
Financial Trends These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	66-73
Revenue Capacity These schedules contain information to help the reader assess the District's most significant local revenue source, the sales tax.	74-79
Debt Capacity These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	80-82
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	83-84
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	85-87

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.
